Extended Services Skills Certification

In order for the extension of the current CLO Professional Indemnity Insurance to the procedures itemised on the accompanying certificate it is required that you can honestly and accurately complete the following statement.

This written and completed record should then be retained, with any supporting documentation, with your personal records in case it needs to be produced at a later date. If training was received on different procedures within the remit of a contact lens optician on different occasions complete a separate document for each.

Extended Services Skills Certification

This is a declaration to confirm

I have received appropriate training and competent in the provision of

(tick box as appropriate)

- Dry eye services for non-contact lens wearers
- Lash epilation
- Lid debridement
- Meibomian gland expression
- Administration of Blephex
- Administration of Lipiflow
- Punctal plugs
- Non-adhered foreign body removal from conjunctiva

The education included, indications, contra-indications, preparation, risks, benefits and options and communication of this to the patient. In addition to the above, I have observed the procedure being carried out on a patient and I have been supervised completing the procedure successfully by

Name **GOC/GMC Number**

Supervisor signature **Date**

Further details of training

I understand this document attests to my skills and competence in carrying out the above procedures and its importance in patient care. I also understand that in the case of any litigation or patient complaint I may be asked to produce this document.
