

Purpose statement:

To revisit specialist contact lens fitting and assessment skills, to develop the contact lens optician's knowledge and fitting confidence.

Abstract:

Exclusively for ABDO contact lens optician, student contact lens optician and optometrist members, this is a continuing professional development (CPD) event to enhance and develop your knowledge, skills and competence when fitting and assessing specialist contact lenses.

Learning outcomes:

- Hands-on knowledge and skills for the fitting and assessment of specialist contact lenses
- Development of practitioner confidence when fitting specialist contact lenses

Target groups:

ABDO members - contact lens optician, student contact lens optician and optometrist only

CET points will be available where relevant to content (see agenda for further details)
